## **UNITED PROTECTION OBTAINS CERTIFICATE OF RECOGNITION UNDER ALBERTA WCB PARTNERSHIP IN INJURY REDUCTION PROGRAM**

**August 1, 2010**

Health and Safety has always played an important role in the success of United Protection Services Inc. who values its employees first and foremost.

To this end UPS is pleased to announce that on July 12, 2010 it obtained its Certificate of Recognition (COR) through the "Partnership in Injury Reduction" program of the Workers' Compensation Board of Alberta. UPS partnered with the Alberta Construction and Safety Association and underwent an extensive and exhaustive audit process in order to achieve recognition of its Health and Safety Program.

Don Allan, CPP, Executive Vice President of United Protection Security Group Inc stated; "This Certificate of Recognition is the result of the hard work of numerous staff within UPS which rallied to ensure that our Health and Safety Program was current and relevant to our industry. This COR now allows us to bid more construction, industrial and municipal contracts where this Certificate is a pre-requisite. UPS has also established a H & S orientation program for all existing and new staff. Our company recognizes that putting Safety First in everything we do will result in personal and organizational success. "
